American Trucks	1500 x 2000 x 960
American Trucks	1710 x 2000 x 960
American Trucks	2010 x 2000 x 960
American Trucks	2310 x 2000 x 960

A lift off canopy can be fitted to any tray of equal or longer length.

- 1500mm canopies are most popular on dual-cab vehicles
- 940mm canopies suit any size vehicle that needs usable tray space behind the canopy
- Full-length canopies provide maximum volume for work or recreational use

STANDARD INCLUSIONS FOR ALL CANOPIES

- Industrial-grade fittings, hinges, latches, locks and handles
- Natural alloy finish (Mill)
- Tube-reinforced gullwing doors
- Welded UniStrut channel rails integrated into the canopy walls and ceiling for mounting accessories
- Welded UniStrut channel rails on the canopy roof for attaching roof racks, solar panels and boat loaders
- 2 x red/white LED rigid strip lights wired to the vehicle battery
- One piece alloy floor with no lips or edges
- Double slots in each corner for wind up legs
- Fitting
